THE NEGOTIATIONS REVIEWED. The following statement of

Slameen strike sums up trouble its causes and the difficulties attending ettlement :

The present dispute regarding Shameen centres on the promulgation of Regulations for the control of other than those entitled to live in Shameen. There has been a growling disregard of the status of Shawhich is rapidly coming to be considered a public area. status of Shameen is that of a Concession for residential and business purposes, and the right of landrenters to regulate traffic in and out and therein is absolute, subject t the approval of the Government the Concessional Countries.

The regulations are designed to give better control to the Police. Government officials and military leaders have expressed themselves unable to deal with the matter, but it is felt that to believe this is to credit an admission of weakness not generally made by the Canton Government.

So far, no untoward incidents have occurred, but this is partly attributable to the process of negotiating and the general desire of the population for a settlement, thus giving no loophole for excessés.

No approach of any kind made by those discontented wit the now traffic and pass regulations until after the 15th July, when the the strike had commenced. When Mr. Tam Lai Ting, together with Mr. Ma Chui Chun (Director of Govt. 'Arsenal' approached Crosse, (the Chairman of the British, Municipal Council) with at view to mediating for the purposes of sottlement. Col. Grosse explained at the time that, as Chairman of the British Conneil, such in position against the regulations, particularly would be difficult, and that he could only accept it provided his efforts in this direction were not confused with his duties as Chairman. Of

the evening of the 16th lines, $\sim Mr_{\rm c}$ Ma, asked Col. Crosse if he would accompany him and Mr. Tam to interview Mr. C. C. Wu, the Minister o. Foreign affairs to Dr. Sun Yat-sen, who had agreed, he said, to mediate on helialf of the strikers. On the morning of the 16th insteadisc. sion took place, which Mr. Wu stated that the origin of the feeling aroused by the Regulations was certain correspondence which had taken place Between the British Consul, General and the Civil Governor, to which Col. Crosse replied that that was a question he was not in a) position to discuss. Mr. Wu further Agents : stated that had the Regulations been published at a different time the present difficulty would probably linve not arisen; that he had not been in personal touch with the Ustrikers, and that he would ascertain their views. The strikers also stated that is the past servants had not been required to have a pass to leave Shameon. (This was pointed out to be incorrect) Col.
